

## IBC container 1000 I washed by REPAS

IBC refurbished container is suitable for transport and storage of liquids. The flap discharge valve guarantees safe and accurate removal of liquids of different viscosities. The container can be of different colours (natural, white, black), mix of pallets - wooden, plastic, metal. The IBC container is already used, therefore it may have minor signs of corrosion and traces of use.

### IBC parameters:

- refurbished steel construction including pallet, pallet can be plastic, metal or wooden
- Inner container incl. fully functional outlet valve size DN 50 (S60x6) / DN 80 (S100x8) - coarse and fine thread
- pressure test and inspection of the steel structure
- filling opening DN 150/225
- colour of inner vessel - natural
- traces of the last filled substance may remain in the pores of the HDPE material, which cannot be mechanically removed to a better quality
- the inner HDPE material may show signs of odour, the reason for the odour is the chemicals applied in the cleaning of mechanical contaminants

**Product code:** 960050

**Number of pieces on the pallet:** 2

## Technical specification

### Features:

Colour	nature
Material	Recycled HDPE
Volume	1000 l
Weight	49 kg

### Dimensions

Length	120 cm
Width	100 cm
Height	117 cm
