

ALC container 60x40x32 with stacking frame

ALC containers with a stacking bar are an excellent option especially in warehouses during the completion and preparation of orders. The stacking bar allows the containers to stack on each other without damaging the goods. The ideal conical shape enables quick stacking, and this is definitely a space saving. The smooth bottom facilitates smooth movement along roller runways. The preparation of goods, especially in the ecommerce sector, is thus very easy with this attribute.

Product code: 967721

Number of pieces on the pallet: 76

Technical specification

Features:	
Colour	blue
Material	PP
Volume	51 I
Weight	2.32 kg

Due to the use of various raw materials, it is not possible to prevent fluctuations in color shades. All technical parameters of the products, including their dimensions and weights, are subject to changes resulting from testing conditions and manufacturing technology. No legally binding guarantees of specific properties can be inferred from the information obtained.
