

ESD plastic pallet H1210

The ESD H1210 plastic pallet is a specialized storage and transport product designed for use in static sensitive industrial environments where it is important to minimize electrical charge and protect sensitive electronics from electrostatic discharge. This pallet is made of the high-quality plastic material that is resistant to moisture, oils and chemicals. The ESD H1208 pallet is the ideal solution for those who need to combine storage and transport efficiency with ESD protection.

Product code: 990137

Number of pieces on the pallet: 21

Technical specification

Features:

Colour	black
Material	ESD
Weight	20 kg

Dimensions

Length	120 cm
Width	100 cm
Height	16.3 cm

Specification

Flow/surface resistance: $10^4 < 10^{10}$ Ohm

Please note that, due to the orientation of the flow derived from the processing method, finished components may exhibit different electrical properties in connection with electrostatic discharge (ESD).

All technical data of the products, including dimensions and weights, are subject to changes resulting from testing conditions and production technology. No legally binding guarantees of specific properties can be inferred from the information obtained.
